Itinerary

Day 1

We meet in Kaş at the hotel lobby at 6.30 pm for the trip briefing. We will explain to you the plan for the week in detail. In case you are arriving late this evening, please let us know.

Day 2

Before breakfast we walk down to the hotel beach for a short acclimatisation swim. Following breakfast, we take our first boat ride on a comfortable Turkish gulet to a small bay along the western side of Kaş peninsula. From there we swim east along the peninsula for about 2.3 km to the Güvercin Island (Pigeon Island, named for its notable bird population). You will swim over a special diving spot of stone sculpture of an interesting ocean animal.

After a lunch break we will film you with our underwater camera for later video analysis in the evening. Most swimmers greatly enjoy seeing themselves swimming in crystal clear water and getting some good tips on their technique.

Our second swim is from Güvercin Island towards the Kas peninsula İnceboğaz beach for about 2.2 km. An impressive underwater views are waiting for you while you swim towards the beach. Head back to the marina.

Day 3

We set off towards the five islands situated just a mile off the Greek island of Meis (Kastellorizo). We hop from one island to another and explore unique underwater landscapes such as a shipwreck and underwater canyon. While you enjoy swimming, our local cook on-board our gulet prepares lunch of tasty Turkish mezes and grilled kebabs using organic and local ingredients.

Our afternoon base is at Limanağzı Bay (Harbour's Mouth Bay). Here we enjoy our lunch and a bit of rest, followed by the second swim from ancient tombs carved into the mountainside to the Büyük Çakıl Bay (Big Pebble beach).

Day 4

Depart Kaş marina for our "Ufakdere day" trip as locals call it. We enjoy our gulet ride heading east backed with a morning sunshine along the southern coast. A fantastic blend of nature and history is the key ingredient of this unique tour. After an hour on our gulet we reach our swimming spot. We swim from Sigtas island (the rock) to the Ufakdere Bay.

Our lunch spot is right in the bay with crystal clear water and stunning views around. For those who want to stretch legs we go for a short hike on the Lycian trekking route around the bay.

After a hearty lunch prepared on the boat, we start the second swim from Ufakdere Bay towards Choban beach for about 2 km. Swim finishes at the corner point at the open sea. Boat drive back to Kaş.

Day 5

Today is our "Ancient Aperlai" day. Our boat takes us towards the Aperlai bay area for about 1.5 hrs where we get ready for our morning swim. Our first swim takes us over the sunken city and we finish right at the end of the Aperlai bay. After our great aquatic experience in turquoise water, we enjoy our boat lunch. Aperlai, a historical Lycian city, is known from silver coins bearing its name that have been discovered and goes back to the 5th century BC. It is located on Sicak peninsula with many interesting sights to see. We make our way exploring by foot through a narrow strip connecting to the other side of peninsula facing Ucagiz village.

We pass by several chapels, polygonal constructions from Roman times, tombs and sarcophagi.

For the afternoon we usually swim out of Inonu bay towards the end of Uluburun point. Boat ride back to marina.

Day 6

Today is our final peninsula day swim. We sail off from Kas harbour to the south-western part of the peninsula. We swim along the peninsula towards Kas marina direction for about 2.4 km.

We base ourselves for lunch in a small bay. After some rest and tasty lunch we continue with our afternoon swim towards Incebogaz Beach point for about 2.2 km. Return to Kas harbour.

(Note! In case of bad weather (sea conditions) we will do an alternative day around Kas peninsula or Limanağzı Bay).

Day 7

The final morning is reserved for a swim down at the Kas beach or time to ask your guide for final tips about your technique.

For those having some extra time or a day in Kas, you can do many different outdoor activities. You can do diving, sea kayaking, canyoning, cycling, paragliding, Turkish bath (hamam) and more.

Or, you take a 10 am ferry to the Greek island of Meis (7 km away). You can visit the Blue cave, walk up to the top of the island or just spend a day at this colourful Greek island.

Swimming awareness

Your safety is of utmost importance to us. In the event of adverse weather conditions at any of our swimming locations, we may need to adapt our itinerary. Our team always includes local guides who know great places to swim, weather conditions, so rest assured you won't be missing out! Swimming in the open sea amongst natural wildlife is a unique experience, but you may come across certain marine life such as jellyfish, sea turtles, coral and sea urchins from time to time. There are very few jellyfish along the Turkish southern coast and so the risk of any unfortunate encounters with them is low. If you are stung by a jellyfish and are unable to carry on swimming, you will never be far from an escort boat where one of the guiding team will be able to treat the affected area. If you suffer from Anaphylaxis or any other allergic reactions it is important to inform us at the time of booking.
